Fort Scott and Memphis Railroad companies, which consolidation, if effected, as represented to the said Commissioners, is in violation of the provisions of sections 1962 and 1963 of the Revised Statutes of Missouri, 1999.

"By order of the Railroad and Warehouse Commissioners. Very respectfully.

"JAMES HARDING, Secretary."
From one of the attorneys who represent the Memphis system it was learned yesterday that under the so-called consolidation of the Frisco and Memphis roads there would be no grounds on which to sustain injunction proceedings or place the Frico officials under the so-called consolidation of the Memphis system, he said, did not propose to lease or transfer to the Frisco that part of the line running from Axa Grove, Mo., to Kansas City, nor that part tunning from Arcadia, Kas., to Springfield. These are to be operated as local lines, separately and independently from the Frisco system and under separate management. In further explanation, he said.

The combined rail output of the Cambria and the Pennsylvania Steel Companies is 1,60,000 tons. Of this the Pennsylvania and Maryland companies produce \$60,000, with a possible increase for both companies, each having under recent reorganization provided capital for a material enlargement of works, and each owning a sufficient ore supply for its needs.

The announcement is made, however, that no disposition exists among the railroads to confine orders to the Cambria and the Pennsylvania companies, but that their rail trade will be distributed as heretofore. Pennsylvania Railroad officials confirm the statement that President Cassatt, in conference with Judge Gary, assured the latter that there was no disposition to work on lines detrimental to the Steel Trust.
